

The United States of America becomes the 101st member country of the International Solar Alliance

Chennai, November 11 2021: In a big boost to accelerate global adoption of solar energy, John Kerry, U.S. Special Presidential Envoy for Climate announced at the UNFCCC COP26 today that the United States of America (USA) has joined the International Solar Alliance (ISA) as a member country. U.S becomes the 101st country to sign the framework agreement of the ISA to catalyze global energy transition through a solar-led approach.

Welcoming the United States of America as the 101st member of the ISA, Union Minister for Environment, Forest & Climate Change, Shri Bhubender Yadav said, that this move will strengthen the ISA and propel future action on providing a clean source of energy to the world."

Signing the framework agreement, U.S. Special Presidential Envoy for Climate John Kerry, said, "It has long been coming, and we are happy to join the International Solar Alliance, which Prime Minister Narendra Modi took the lead in making. We

worked out the details and this is a process we are pleased to be a part of. This will be an important contribution to more rapid deployment of solar globally. It will be particularly important for developing countries."

Dr. Ajay Mathur, Director General, the ISA said, "The US' endorsement of ISA's framework and approach is a heartening development, especially as our 101st member nation, which is a significant milestone in itself, demonstrating that nations across the world are recognizing the economic and climate mitigating value of solar, as well as this energy source's potential as a catalyst for global energy transition."

The launch of the International Solar Alliance (ISA) was announced by H.E. Mr. Narendra Modi, the Hon'ble Prime Minister of India and H.E. Mr. Francois Hollande, former Hon'ble President of France on 30th November 2015, at the 21st session of United Nations Climate Change Conference of the Parties (COP-21) in Paris,

France. Former UN Secretary-General Ban Ki-moon attended the launch, alongside the Heads of about 120 nations who affirmed their participation in the Alliance to dedicate efforts for promotion of solar energy.

The framework was first circulated for countries' support in 2016. The framework emphasizes delivering

global relevance and local benefit to all countries through collaborations, with ISA's key interventions focusing on readiness & enabling activities, risk mitigation & innovative financing instruments to facilitate the promotion and deployment of solar technologies in target markets.

The approach and methods detailed in the

framework have already delivered results, with ISA of the COP26 in Glasgow building a solar project pipeline of nearly 5 GW installed capacity. The approach detailed in this framework will culminate in a vision for interconnected global grids, which was formalized and jointly launched as the 'Green Grids Initiative - One Sun One World One Grid' (GGI-OSOWOG), during

the World Leaders Summit on 2nd November 2021 by the UK Presidency of COP26 and India Presidency of International Solar Alliance (ISA). Earlier at COP26, the United States also joined the Steering Committee of the GGI-OSOWOG comprising of 5 members - USA, Australia, France, the United Kingdom, and India

— and endorsed the One Sun Declaration along with 80 countries. United States of America's Secretary of Energy Jennifer Granholm had said that "the Grid-Sun combination will save the planet. The GGI-OSOWOG is focusing on the two most important pieces of the puzzle. We at the US Department of Energy are happy to be a partner with GGI-OSOWOG."

U.S.' endorsement of the ISA framework follows remarks by U.S. Special Presidential Envoy for Climate John Kerry at the Fourth General Assembly of ISA in October 2021, where he had said that ISA is critical to reducing greenhouse gas emissions and has an opportunity to accelerate Solar's growth with member countries blessed with the world's strongest sunlight. Stating that, "Solar energy is at the heart of the urgent climate action," Mr. Kerry urged nations to take dramatic action to keep the 1.5-degree Celsius temperature rise and mid-century net zero emissions targets within reach.

The ISA is an inter-governmental treaty-based

international organization with a global mandate to catalyze global solar growth by helping to reduce the cost of financing and technology for solar. In fulfilling this mandate, the ISA is committed to establishing solar as a shared solution that simultaneously addresses climate, energy, and economic priorities across geographies, facilitating Energy Transition at a global level, Energy Security at national levels, while also ensuring Energy Access at the local level. The ISA is helping large nations scale global commitments, thereby serving the planet's needs for reduced carbon emissions, while also helping economically more vulnerable nations establish a self-sustaining energy alternative that reduces trade dependency and drives job creation. Universal, affordable, and reliable last-mile electricity connectivity across socio-economic strata is a crucial pillar and targeted, tangible outcome of these combined efforts towards facilitating economic development and environmental impact.

Admiral Karambir Singh, CNS on Farewell visit to ENC

India's Safest Vehicle Remains a Mahindra

Chennai, November 11, 2021: Mahindra surpassed its own safety records and secured 5-star Global NCAP rating for XUV700. It has the highest combined safety score (Adult + Child) of 57.69 out of a total of 66.00, among the Indian vehicles tested so far by Global NCAP which makes XUV700 the safest Indian vehicle and the first full-size 7-seater SUV in the country to receive 5-Star Rating. As a part of the #SaferCarsForIndia campaign, it has achieved an adult score of 16.03 out of 17.00. It has also secured a child safety score of 41.66 out of 49.00, the highest among all the vehicles in India tested by Global NCAP so far. The official Global NCAP test for the Mahindra XUV700 was conducted in Germany in October 2021.

While XUV700 is known for its performance

and capability, it is now acknowledged as India's safest vehicle on road based on the scores given by Global NCAP. Commenting on this recognition, Velusamy R, Chief of Global Product Development, Mahindra & Mahindra Ltd. said, "When we were developing the XUV700, we were confident that the XUV700 will achieve 5-star safety rating based on the internal tests done on the vehicle. With XUV700, Mahindra is redefining the SUV segment

not just in performance and features but also in terms of safety. Our mission is to bring safer vehicles on Indian roads and to that end, we are building cars with maximum structural integrity loaded with tech-enabled features for maximum safety, performance and efficiency. In addition to the rating, it is heartening to be recognized by Global NCAP for being the first Indian made and owned brand to offer Autonomous Emergency Braking (AEB) as a safety

option, part of ADAS." Alejandro Furas, Secretary General of Global NCAP said, "Mahindra has achieved a major milestone with this top score for adult protection and by becoming the first Indian made and owned brand to offer Autonomous Emergency Braking (AEB) as a safety option. Making this life saving technology available is an important step in encouraging the widespread fitment of crash avoidance technologies. Mahindra is one of the leading manufacturers in India, committed to improving their vehicles in response to Global NCAP's call to democratise vehicle safety."

Unveiled in August 2021, the XUV700, with a starting price at ₹ 12.49 Lakh (Ex-showroom, Pan India), is a safe SUV for every Indian customer, including families.

India Launches E-Amrit Portal on EVs at COP26

Chennai, November 11, 2021: India today launched 'E-Amrit', a web portal on electric vehicles (EVs), at the ongoing COP26 Summit in Glasgow, UK.

E-Amrit is a one-stop destination for all information on electric vehicles—busting myths around the adoption of EVs, their purchase, investment opportunities, policies, subsidies, etc.

E-Amrit intends to complement initiatives of the government on raising

The portal has been developed and hosted by NITI Aayog under a collaborative knowledge exchange programme with the UK government and as part of the UK-India Joint Roadmap 2030, signed by the Prime Ministers of the two countries.

E-Amrit intends to complement initiatives of the government on raising

awareness on EVs and sensitizing consumers on the benefits of switching to electric vehicles. In the recent past, India has taken many initiatives to accelerate the decarbonisation of transport and adoption of electric mobility in the country. Schemes such as FAME and PLI are especially important in creating an ecosystem for the early adoption of EVs.

NITI Aayog intends to add more features and introduce innovative tools to make the portal more interactive and user-friendly. The launch was attended by UK High-Level Climate Action Champion Nigel Topping and NITI Aayog Adviser Sudhendu Jyoti Sinha.

Stratzy, an investment advisory platform for everyday investors, raises USD 800,000

Mumbai, November 11, 2021: Stratzy, an investment advisory platform for everyday investors has raised USD 800,000 in a pre-seed funding round from Leo Capital, Titan Capital, and First Cheque. The funding will be used to bolster leadership and talent, obtain regulatory permits, and beef-up marketing, in a bid to acquire new users. The platform currently has 10,000+ users and plans to clock 1+ Million downloads, by the end of 2022.

Founded by Mohit Bhandari (Co-Founder & CEO) and Gaurav Sangle (Co-Founder & CTO) earlier this year, Stratzy has swiftly gained traction for providing customers with smart investment avenues. The platform offers data-backed strategies for users to invest in, in partnership with top brokers like Zerodha, 5paisa, Fyers, and AngelOne, amongst others.

Speaking about the funding, Mohit Bhandari, Co-Founder & CEO, Stratzy said, "While the ultra-rich have a plethora of financial products at their disposal, the regular investor generally finds it challenging to access niche investment opportunities. This is where Stratzy steps in to bridge the gap and offer a simple, user-friendly, and fluid interface that caters to everyone. Our goal is to assist individuals in investing their money in the same way that

the affluent and HNIs do. The product has been especially created for the Gen Z that is fueling the industry's growth."

Stratzy sits at an interesting intersection between passive robo-advisors and active stock-picking, allowing users to earn great returns and gain stock-picking knowledge without having to make the decisions themselves. Keeping in mind the marketplace method used by

other companies, which lacks Contact and Personalization, Stratzy has been designed with a vision to assist and support its clients in making better financial decisions. We are also planning to integrate crypto investment strategies on the platform, which should be up and running by early next year," he added.

Talking about their investment, Rajul Garg, Founder, Leo Capital, said, "The pandemic has seen a spike in the number of first-

time investors and several of them belong to the millennial and Gen Z population who not only need an easy to use investment platform but also want to participate more actively in the investment decision-making process as opposed to the previous generation. However, the current solutions in the market do not cater to these needs and there is room for more innovation to take place in this space. At Leo, before investing, we look at the depth of the problem and how technology is being leveraged to tackle the issue. We were impressed by Mohit and Gaurav's vision and execution capabilities and are excited to partner with them as they go on to transform the investment experience for everyday investors"

Other investors in the Mumbai-based virtual investment advisory platform include Harsh Shah (Co-Founder, Fynd), Farid Ahsan (Co-Founder, Sharechat) and Archana Priyadarshini (General Partner, PointOne Capital). Concepts on Stratzy are monitored by its Investments & Research team, enabling users to buy the ideas with a simple swipe, and enjoy the benefits of direct investing. This Dhanteras demand surge for precious metals in Tier-II cities ahead of Tier-I: Just Dial Consumer Insights

Mumbai, November 11, 2021: Just Dial, India's No. 1 hyper-local search engine witnessed a significant QoQ 20% jump in demand for precious metals with demand for gold remaining high, almost at 3X of silver during this festive season. The demand surge for precious metals in Tier-II cities remained higher in vis-à-vis Tier-I.

Gold prices have fallen since reaching the peak in August 2020 and this festive season have remained the most searched precious metal on India's No.1 local search engine, reports the latest Just Dial Consumer Insight Report. While demand for gold was 3X of silver, the latter saw the highest QoQ growth in demand of 30% while demand for both gold and diamond saw a growth of 18%.

Commenting on the consumer behaviour, Mr. Prasun Kumar, CMO, Just Dial, said "Correction in gold prices and strong demand triggered by the festive season across the country, have made the yellow metal the most sought after. On Just Dial, demand for gold in Tier-I

cities remained high but it was also interesting to witness a faster growth in demand in Tier-II cities led by Lucknow, Jaipur, and Coimbatore. With volatility in the market, we will see more and more consumers investing in gold for security reasons. Besides, the rise in demand for other precious metals such as silver and diamond are also encouraging."

For gold, silver, and diamond, demand growth rate in Tier-II cities remained higher than Tier-I cities. In terms of gold, demand growth rate in Tier-II towns (24%) remained marginally ahead of Tier-I cities (22%). For silver, Tier-II cities (40%) saw 2X growth rate vis-à-vis Tier-I (20%) while demand for diamond also remained higher in Tier-II cities (38%)

compared to Tier-I cities (14%).

In terms of demand volume (searches) for gold, Mumbai, Delhi, and Hyderabad were the top-3 Tier-I cities followed by Bangalore, Chennai, Kolkata, Pune, and Ahmedabad. Among Tier-II cities, Lucknow, Jaipur, and Coimbatore were the top-3 with maximum demand followed by Vijayawada, Surat, Rajkot, Visakhapatnam, Patna, Chandigarh, and Thrissur. Most of the demand in gold was for jewellery, coins, and bars. Demand for gold jewellery has picked up by 20% QoQ with chain, necklace, and nose ring being the most sought after.

For silver, Delhi,

Hyderabad, and Bangalore were the top-3 cities with maximum demand among Tier-I cities followed by Mumbai, Chennai, Kolkata, Ahmedabad, and Pune. Among tier-II cities, demand remained high in Jaipur, Vijayawada, and Coimbatore followed by Rajkot, Agra, Kolhapur, Chandigarh, Visakhapatnam, Salem, and Surat. The demand for silver was largely driven by jewellery set, coins, decorative items, and dinner sets.

Mumbai, Delhi, and Chennai saw higher demand for diamond among Tier-I cities followed by Hyderabad, Ahmedabad, Kolkata, Bangalore, and Pune. Among Tier-II cities, the traditional diamond hub of Surat witnessed maximum demand followed by Lucknow, and Bhopal. The cities of Jaipur, Coimbatore, Chandigarh, Varanasi, Vadodra, Indore, and Kanpur also made it to the top-10 Tier-II cities with maximum demand. Demand growth rate for diamond jewellery also went up by 18% with rings, nose rings, and necklace being the most sought diamond items during this festive season.

DMI Finance Partners with Reliance Retail

Chennai, November 11, 2021: DMI Finance Private Limited ("DMI") today announced its partnership with Reliance Retail Limited to provide a first-of-its-kind suite of digital finance options for Reliance Retail consumer electronics customers across India.

Through a completely

paperless digital journey, DMI will offer financing solutions to Reliance Retail consumer electronics customers at merchant locations across India. This partnership will kick-off with loans for the newly-launched JioPhone Next by Reliance Retail.

This transformational partnership brings to all

Reliance Retail customers an end-to-end paperless journey that will provide instant, flexible, and affordable EMI options. The loan tenor for the JioPhone Next will be 18 and 24 months.

The spokesperson at DMI said: "In today's world, a smartphone is not just a consumer product, but a tool for financial

inclusion at large. We, at DMI, are proud to partner with Reliance Retail to provide financing for a range of consumer electronics starting with the JioPhone Next, that will enable access to a digital life for hundreds of millions of Indians and bring them a step closer to realizing their dream of a more prosperous future."

Axis Mutual Fund launches 'Axis Nifty 50 Index Fund'

Chennai, November 11, 2021: Axis Mutual Fund, one of the leading asset management companies in India announced the launch of Axis Nifty 50 Index Fund, today. It is an open-ended scheme that will track the Nifty 50 Index TRI and allow investors to passively participate in the large cap universe. The NFO opens for subscription on 15th November 2021 and closes on 29th November 2021. The Axis Nifty 50 Index Fund will be managed by Jinesh Gopani, Head-Equity. The minimum application amount is INR 5,000 and investors can invest in multiples of INR 1, thereafter. The fund's

passive strategy seeks to replicate the Nifty 50 Index by investing in a basket of Nifty 50 Index stocks across 13 categories in the same proportions as their weightages in the index.

The Nifty 50 Index represents 50 companies selected from NIFTY 50 universe, based on free-float market capitalization. As the index is considered as the de-facto barometer of the Indian equity market, the fund can be an ideal option for investors looking for market-linked equity returns and long term wealth creation solutions. Through a single index, investors can benefit from diversification and quality investments in large cap bluechip

companies. Furthermore, given the mutual fund structure, investors can look to invest through various systematic options like SIPs, STP's & Flexi SIP/STP in addition to lumpsum investments.

Passively managed index funds have started gaining significance amongst domestic investors due to the potential of benchmark returns. In addition to lower expense ratios and the lower tracking error, index funds provide the benefit of complete transparency of the portfolio composition. As they replicate the index and do not carry out any security selection, passive funds provide more

predictability in terms of their performance in different phases of the market.

Mr. Chandresh Nigam, MD & CEO, Axis AMC said, "Axis AMC has believed in offering quality products to investors that suits their risk appetite and needs. Not only do we aim to build a robust product portfolio but hope to deliver consistent performance in every fund that we manage. Axis Nifty 50 Fund's low friction investment strategy that relies on broader market wisdom coupled with the principle of 'quality & growth' philosophy will yield wealth creation opportunities for investors."

Axis Bank signs MOU with Indian Army for Retail Mortgage loans

Chennai, November 11, 2021: Axis Bank, India's third-largest private sector bank, today signed an MOU with the Army Insurance Group (AGI) to offer retail mortgage loans to the Indian Army. The bank will offer best-in-class products and services to cater to their home loan requirements.

The signing ceremony was represented by Major General S Kemparaj VSM, SM, MD- AGIF, Col

PP Singh, Director (Loans); Lt Col Vikram Singh from the Indian Army and Axis Bank was represented by Ganesh Sankaran, Group Executive (Wholesale Banking), Sumit Bali, Group Executive and Head - Retail Lending and Vivek Bimbrahw, Group Head (Govt. Business North).

Through this partnership, the bank will exclusively offer higher loan amounts as well as facility to transfer the

balance of their loans from AGI to Axis Bank. As all Army personnel are entitled to draw pension, the borrower can also extend its repayment period beyond their retirement thus enabling them to borrow higher loan.

Speaking on the occasion Sumit Bali, Group Executive and Head - Retail lending, Axis Bank said, "It gives us immense pride to partner with the Army Group Insurance which will

enable us to connect with an entire force of 13 Lac troops and offer them best in class retail mortgage loans. This MoU reflects Axis Bank's continued efforts to meet the financial requirements of the Defence personnel who are selflessly serving the nation."

Through this partnership, Axis Bank has reinforced its commitment to address the financial requirements of Defence personnel.

Mahindra Logistics acquires MERU

Chennai, November 11, 2021: Mahindra Logistics Ltd. (MLL), one of India's largest Third-Party Logistics solution providers, today announced its acquisition of Meru:

- 100% equity share capital of Meru Mobility Tech Private Limited, V-Link Fleet Solutions Private Limited and V-Link Automotive Services Private Limited from Meru Travel Solutions Private Limited (MTSPL) and

- 100% equity share capital of MTSPL from Mahindra & Mahindra Limited (M&M).

The acquisition is a strategic move to consolidate and expand MLL's business in the enterprise mobility space.

Meru Cabs, a ridesharing company founded in 2006, revolutionized the way people travelled in cabs by offering AC cabs at their doorstep with a single call. Today, Meru has a significant presence in the airport ride hailing segment and provides on-call and employee mobility services to corporates in India. Meru also has a large number of Electric vehicles in their fleet.

The addition of Meru under its brand, will further strengthen MLL's mobility business. MLL is already a leader in its Enterprise Mobility Service (ETMS) business, which operates under the 'Alyte' brand. With this acquisition, MLL will enhance its range of mobility solutions with strategic focus on enterprise customers and electric mobility.

Speaking on the occasion, Rampraveen Swaminathan, MD & CEO, Mahindra Logistics Ltd. said, "I am pleased to welcome Meru, a pioneering brand in the shared mobility space in India, to the

Mahindra Logistics family. The acquisition complements our mobility services portfolio with an expansion in airport ride-hailing and on-call services. We anticipate significant synergies by leveraging the combined capabilities in supply, technology management and Electric mobility. The combined capabilities of Meru & Alyte will enable us to better serve our B2C and enterprise customers with an expanded portfolio of services delivering on a promise of safety, customer excellence & sustainability."

ICICI Lombard to help flood affected customers in Chennai

Chennai, November 11, 2021: With rains lashing Chennai city relentlessly and leading to widespread loss of property, roads and businesses, ICICI Lombard General Insurance, India's leading private general insurance company has proactively taken critical measures to support customers in the flood damaged regions in Chennai. In order to mitigate the hardships of the population in affected regions and provide a seamless claims service, the company has triggered SMS alerts. As a post-calamity measure, the company will be enabling FastTrack claim settlements desks across

branches and intimate its partner garages to prioritize vehicles affected due to floods. The recurrent rainfall inundated many parts of Chennai and surrounding districts of Chengalpattu, Kancheepuram and Tiruvallur, bringing them to a standstill, evoking memories of 2015. The downpour severely impacted the city's vehicular movements, both public and private. In order to expedite the claims process for vehicles, the insurer would be setting up a 'FastTrack settlement desk' at its branches in Chennai, depending on the flood claim

volume. The key objective is to extend every possible support for quick and timely settlement of claims for its motor policyholders.

As a precautionary measure, the company has already instigated SMS alerts to motor policyholders to call on the toll free number 18002666, in case of vehicle damage due to continued flooding. Additionally, given engine seizure is among the common problems, the company has also sent out SMS alerts requesting customers to avoid starting motor vehicles in case the water has entered the body of the vehicle or engine parts.

Alongside, as a means to function round the clock to support customers, the insurer has also activated partner garages to prioritize flood vehicles to fasten the process. The company has notified all its policyholders on ways to connect with them for claim settlement, in case they have suffered losses due to the floods.

ICICI Lombard encourages all their customers to take advantage of digital solutions through IL Take Care App for prompt intimation of claims. Alternately, customers can also connect on the toll-free number 18002666, for any assistance.
