

MORE THAN 3 CRORE INCOME TAX RETURNS FILED ON NEW E-FILING PORTAL OF INCOME TAX DEPARTMENT; TAXPAYERS WHO ARE YET TO FILE THEIR ITRS FOR AY 2021-22 ADVISED TO FILE AT THE EARLIEST

Chennai, December 06 2021: More than 3 crore Income Tax Returns have now been filed on the new e-filing portal of the Income Tax Department as on 3rd December 2021. The number of ITRs filed per day is over 4 lakh and increasing everyday as the extended due date of 31st December 2021 is approaching.

The Income Tax Department strongly urges all taxpayers to view their Form 26AS and Annual Information Statement (AIS) through the e-filing portal to verify the accuracy of the TDS and Tax Payments and avail of pre-filing of ITRs. It is important for taxpayers to cross check the data in the AIS statement with their Bank passbook, interest certificate, Form 16 and Capital gains statement from brokerages in case of purchase and sale of equity/Mutual funds etc.

ITR4 (70.07 lakh), ITR5 (2.14 lakh), ITR6 (0.91 lakh) and ITR7 (0.15 lakh). Over 52% of these ITRs are filed using the online ITR form on the portal and the balance are uploaded using the ITR created from the offline software utilities.

In November, 48% of the verified ITRs 1, 2 and 4 have been processed on the same day. Of the verified ITRs more than 2.11 crore ITRs have been processed and over 82.80 lakh refunds for AY 2021-22 have been issued. Taxpayers are urged to ensure that the bank account selected for credit of refund must have their PAN number linked at the bank to avoid refund failures.

The process of e-verification through Aadhaar OTP and other methods is important for the Department to commence processing of the ITR and to issue refunds, if any. It is encouraging to note that 2.69 crore returns have been e-verified, out of which more than 2.28 crore are through Aadhaar based OTP.

Overall 8.33 lakh DSCs have been registered. In the simplified process of DSC registration any individual has to register his DSC only once and can use it across any entity where the individual is a partner,

Income Tax Return (ITR) filing has increased to 3.03 crore ITRs for AY 2021-22. 58.98% of these are ITR1 (1.78 crore), 8% is ITR2 (24.42 lakh), 8.7% is ITR3 (26.58 lakh), 23.12% are

director etc without having to re-register again against each entity or role.

Over 34.01 lakh Statutory Forms have been submitted including 15.11 lakh TDS statements, 1.56 lakh Form 10A for registration of Trusts/institutions, 3.29 lakh Form 10E for arrears of salary, 49,295 Form 35 pertaining to filing of Appeal and 35,342 DTVS Form 4 till 3rd December, 2021. Over 7.81 lakh 15CA and more than 1.82 lakh 15CB forms have been filed. More than 29.54 lakh e-PANs have been allotted online free of cost. The Legal Heir functionality has been enabled for registrations and compliance

The Department has been issuing reminders to taxpayers through emails, SMS and media campaigns encouraging taxpayers to file their Income Tax Returns without further delay.

All taxpayers who are yet to file their Income Tax returns for AY 2021-22 are requested to file their returns at the earliest to avoid last minute rush.

DR. ANNAMALAI PANDIAN HAS BEEN APPOINTED SPECIAL ADVISER ON HEALTHCARE AND ABDUL GHANI HAS BEEN APPOINTED SPECIAL ADVISER ON ECONOMICS AND TRADE TO THE REPUBLIC OF SOMALILAND FROM TAMIL NADU

Chennai, December 06 2021: Dr. Annamalai Pandian, who is presiding over the Deepam Hospital, will act as the Special Representative of the Republic of Somalia in the presence of the Vice President of the Republic of Somali Abdillahi Ismail at the event held at the Star Hotel in Mylapore, Chennai. The Republic of Somaliland signed a Memorandum of Understanding (MOU) with Deepam Hospital to help residents of Somaliland access Medical facilities in Tamilnadu.

Abdul Ghani will also serve as the Special Adviser on Economy and Trade of the Republic of Somali to further enhance the Rs. 4,870 crore annual trade relationship between India and the Republic of Somali in textile, agriculture and other products. It has also

been reported that the Somali Republicans will be involved in efforts to set up a trade center in Tamil Nadu.

Dr. Annamalai Pandian has initiated investment in Primary, Secondary and Nutritional health care for the Republic of Somaliland with the assistance of International Agencies. Overall investment is estimated to be around USD 100 Mn. Every year, around 50,000 people from Somaliland are travelling to various countries including India, for medical tourism. In the future, medical tourism will be organized through the Trade Office and will predominantly be delivered in Tamil Nadu in line with the Chief Minister's vision to make Tamil Nadu as a destination for Medical Tourism.

Abdul Ghani, with his wide contacts in the United

Nation and several other countries, will attract investments from various countries including India for the development of trade, commerce and economy of the Republic of Somaliland. Abdul Ghani will head the Official trade office of the Republic of Somaliland in India, which aims to coordinate with potential investors across the world. In this event Delegates of Somaliland Abdurahman Abdillahi Ismail - Vice President Republic of Somaliland, Houssein Moussa Al-Ishaqi - Senior Advisor to the Vice President, Dr. Zakaria Dahir - Senior Adviser to the President and Minister of Health Head of Scaling Up Nutrition participated along with Dr. Annamalai Pandian, Mr. Abdul Gani & Kavinkumar Kandasamy Director, Mangalam Education Trust.

PRESIDENT'S STANDARD TO BE AWARDED TO 22 KILLER SQUADRON

Chennai, December 06 2021: Shri Ram Nath Kovind, the Honourable President of India, will award the President's Standard to the 22nd Missile Vessel Squadron, also known as the Killer Squadron at a ceremonial parade to be held at Naval Dockyard, Mumbai on 08 Dec 21. To mark the occasion, a Special Day Cover along with a commemorative stamp will also be released by the Postal Department.

victory in 1971 war and is being celebrated across the country as Swarnim Vijay Varsh. The year also marks fifty years since inception of the Killers who over the past five decades have maintained the capability of delivering a credible offensive punch from the sea. Being the tip of the Sword Arm of the Indian Navy, the battle ready Missile Vessel Squadron has participated in Op Vijay, Op Parakram and most recently, during the heightened security state following the Pulwama attack deployed within striking distance of Pakistan coast. The squadron prides itself with distinguished battle honours including one Maha Vir Chakra, seven Vir Chakras and eight Na usena Medals (Gallantry) which are testimony to the gallant spirit of the Killers. These lethal ships capable of high speeds and stealthy strikes, fitted with state of the art weapons and sensors, manned by the youngest and most motivated crew the 22nd Missile Vessel Squadron are the Navy's assurance to the nation against any misadventure by our adversaries. The President's Standard being awarded to this fearless formation is a well-deserved tribute to the men who, over the years have rendered invaluable service to the nation as a part of the 'Killer Squadron'.

year 1969, with the induction of OSA I Class missile boats from erstwhile USSR to bolster the strength of the Indian Navy. These missile boats were transported to India on heavy lift merchant ships and commissioned in early 1971 at Kolkata. They were baptised by fire in the same year during the Indo - Pak war of 1971 where they played a decisive role in the outcome of the war.

On the night of 04-06 Dec 1971, the youngest warriors of a young Indian Navy drew first blood when they launched a devastating offensive on the Pakistan Navy. Indian Navy ships Nirghat, Nipat and Veer fired their Styx missiles and sank Pakistan Navy ships Khyber and Muhafiz, delivering a deathly blow to aspirations of the Pakistan Navy and crippling them for years to

The ceremony is expected to be attended by the Governor, Chief Minister of Maharashtra and Chief of the Naval Staff as well as several other civil and military dignitaries. The President's Standard is the highest honour bestowed by the Supreme Commander to a military unit in recognition of the service rendered to the nation. The Indian Navy was awarded the President's Colours on 27 May 1951 by the then President of India, Dr Rajendra Prasad. The President's Standard is the same honour as the President's Colours, awarded to a relatively smaller military formation or unit.

The 22nd Missile Vessel Squadron was formally established at Mumbai in Oct 1991 with ten Veer Class and three Prabal Class missile boats. However, the genesis of 'Killers' dates back to the

Chennai, December 06 2021: India's biggest annual conference on eye surgery IIRSI 2021 was inaugurated by the Thiru Siva. V. Meyyanathan, Hon'ble Minister for Environment and Pollution Control, Youth Welfare and Sports Development today. Dr. Mahipal S. Sachdev, Chairman Scientific Committee- IIRSI, Dr. Amit Tarafdar, Dr. Himanshu Mehta and Prof. Amar Agarwal, Secretary General - IIRSI and Chairman, Dr Agarwal's Eye Hospital were also present during the occasion. Leading ophthalmologists are participating in the two-day event held by the Intraocular Implant and Refractive Society of India (IIRSI) to showcase their skills and present the latest advancements in the field of ophthalmology, especially cataract and refractive surgery. Addressing the distinguished gathering Thiru Siva. V. Meyyanathan, Hon'ble Minister for Environment and Pollution Control, Youth Welfare and Sports Development said, "It gives me great pleasure to be part of the inaugural function of the 36th Intraocular Implant and Refractive Surgery Convention. This convention is being attended by doctors from India and other countries creates a platform for interaction in respect to development of new diagnostic and treatment modalities on Ophthalmology. South India and especially Tamil Nadu has always been a fore runner in healthcare particularly in Ophthalmology and hosts many of the premier eye institutes from where aspiring Ophthalmologists embedded with skills and advanced technology pass out and serve different parts of the country. There is a huge prevalence of eye disorders in India. According to a World Health Organization, India has an estimated 12 million blind

people and additional 450 million people who require vision correction. Conferences like the IIRSI play a very important role in enhancing the skills of Indian eye surgeons. "Speaking on the occasion Prof. Amar Agarwal, Secretary General, IIRSI, and Chairman, Dr Agarwal's Eye Hospital said "The annual conference of IIRSI has become a pivotal event in the ophthalmology calendar of India centred on global ophthalmic innovations. This year, top eye surgeons from are participating to showcase the surgeons the latest advancements in the field. This conference will provide a platform for the aspiring surgeons to know different ways of tackling the difficult situations of cataract and its surgery through interaction between them. Overall,

IIRSI has been instrumental in significantly increasing the capabilities and offerings of the eyecare sector in India in terms of diagnostics and treatment." "Intraocular lens (IOL) implant is one of the most common eye surgeries. But in some cases the patients don't have back support due to absence of lens in the eye. In such cases, the surgeons use the iris claw lens, which has an advantage — it can be fixated to the iris without sutures because the peripheral iris is incarcerated between the claws" added Prof. Amar Agarwal, Secretary General, IIRSI, and Chairman, Dr Agarwal's Eye Hospital. IIRSI 2021 aims to bring together Ophthalmologists across India and abroad to discuss the advancement in technology and their experience in IOL implantation and Refractive

Surgery and contribute towards the treatment of preventive blindness. The conference covers Invited Foreign faculty lectures, session for young ophthalmologists, Hands on Wetlab courses, Ophthalmic Premier League competition, Court Martial in Ophthalmology, Company sponsored symposiums, IIRSI Film Festival Award Show, IFFA, IIRSI Photography Competition. The two-day event is being held on December 4 and 5 at ITC Grand Chola Hotel in Chennai. International Awardees: Dr. Michael Tsatsos, Greece, Dr. Richardo Nose, Brazil and Dr. Tarek Katamish, Egypt. Indian Awardees : Ragini Parekh - J. Agarwal Global Icon Gold Medal, Mukesh Sharma - Subodh Agrawal Gold Medal, Krishna Prasad Kudlu - Dr. Mrs. T. Agarwal Gold Medal, Ritika Sachdev - Dr. Daljit Singh Gold Medal, Aravind Srinivasan - Chennai, Chandrima Paul - Kolkata, Deepak Megur - Bidar, Geetha Iyer - Chennai, Madhavi K - Vijayawada, Manoj Khatri - Chennai, Pooja Khamar - Karnataka, Prashanth Bawankule - Nagpur, Preetam Samant - Mumbai, Pushpinder Kaur - Punjab, Rushad Shroff - Delhi and Shrinivas Joshi - Karnataka.

IT Minister Ashwini Vaishnaw challenges bankers to create platform for providing quick and easy credit to MSMEs/small industries/small businessmen /people at the bottom of pyramid

Chennai, December 06, 2021: The Ministry of Electronics and Information Technology (MeitY) today hosted a unique event - 'Digital Payment Utsav' as part of the week-long 'Azadi Ka Digital Mahotsav'. The day celebrated the journey and rise of digital payments in India and brought together leaders from the Government, banking sector, fintech companies and startups. The event held at the India Habitat Centre witnessed the unveiling of the DIGIDHAN logo, launch of an awareness campaign called Digital Payments Sandesh Yatra with digital payments anthem titled 'Chutki Baja ke' (cashless, touchless, paperless). Top Banks and Fintechs were awarded & recognized in various categories for their achievements in FY 2019-20 and FY 2020-21 towards the promotion of digital payments. During the event, MeitY also recognised the contribution of four payment system aggregators for onboarding street vendors under the PM SVANidhi Scheme.

Shri Ashwini Vaishnaw, Minister for Electronics & Information Technology, Railways and Communications congratulated the winners and placed a challenge before the bankers to create a platform as powerful and seamless as the UPI for providing quick and easy credit to the MSMEs, small industries, small businessmen and people at the bottom of the pyramid. "You (bankers) have today a very good ecosystem of Aadhar, Digilocker and UPI to take up the challenge. Work on the challenge for the next three months, come back and I will work the whole day with you to look at the concepts you have brought," he said.

Shri Rajeev

Chandrasekhar, Minister of State for Electronics & Information Technology and Skill Development and Entrepreneurship delivered a special address recognising the efforts of the BFSI & Fintech players for making the dream of a less-cash, digitally empowered and AatmaNirbhar Bharat a reality.

He said that it was due to the efforts of PM Shri Narendra Modi that now, even during the pandemic, citizens could get their benefits directly into their account with no leakage, corruption, and in the most responsible manner that any democratic government can do. "The performance of India in digital payment space is the envy of nations around the world that years ago thought they are ahead in technology and innovation," he added.

The keynote speaker at the event Shri Ajay Sawhney, Secretary, MeitY emphasised the vision to make India a less-cash society and shared his insights on the need for a robust and secure payment ecosystem. "Coming on top of Aadhar, UPI has created a certain magic, making it a living digital identity for which we don't even require a card in pocket. UPI is not just a database or a project, it is a nationwide ecosystem where everyone is welcome to join in.

UPI continues to grow at an unexpected pace...but we still have many miles to go. Till we see cash our work is not complete," he said.

Ms. Simmi Chaudhary, Economic Adviser, MeitY highlighted the importance of digital payments in this unprecedented time caused by the COVID pandemic globally. "Thanks to the wide acceptance of customers, we have been witnessing exponential growth in Digital payments year after year and especially during the pandemic. The total transaction volume has increased from Rs 2,071 crore in financial year 2018 to Rs 5,551 crore in financial year 2021. Digital payments have been keeping the economy running and helping people reduce the contact with the virus".

The event saw the launch of innovative solutions like:

Payments On the Go: Wearables are re-defining the true paperless contactless payments, catalysing them further, Bank of Baroda and City Union Bank launched Rupay-on-the-Go.

Inclusive Credit for All: Credit cards represent the next big in fintech and contactless is truly the way forward. To drive it to the next level, India Post Payments Bank-Punjab National Bank, Kotak Bank, YES Bank, Indian Overseas Bank, ICICI Bank, Indian

Bank, Bank of Maharashtra, and City Union Bank launched Contactless Credit cards on the RuPay network.

Empowering Small Merchants: India has close to 1.5 crore retail stores/ Kiriyana stores. Union Bank announced an android-based SOFTPOS mobile app for point of sales, which will further the cause of digital payment adoption.

As many as 40 stalls were set up by various fintechs, banks and other ecosystem partners, who have contributed to the revolution of digital payments in the country, as part of an Expo in the event.

The event was marked by various cultural activities, an Awards ceremony for banks and fintechs, the launch of "Chutki Baja Ke" Digital Payments Anthem, and the flag-off of Digital Payments Sandesh Yatra by the Union Minister and other dignitaries.

The Art & Cultural arena at the Utsav captured the attention of all the attendees through captivating performances like Flash Mob, Sand Artist performance, and varied stalls by banks & fintechs.

The Digital Payment Utsav was organised to bring together players of the BFSI and fintech space under one roof and celebrate their hard work and commitment towards the growth of digital payments backed up by constant innovation. The Hon'ble Minister called upon all entrepreneurs, investors, and professionals from the industry to partake in our endeavour to make India a pioneer in digital payments not only in India but globally.

'Digital Payment Utsav' celebrated the success of the tremendous growth of digital payment transactions over the past few years.

IT Minister Ashwini Vaishnaw challenges bankers to create platform for providing quick and easy credit to MSMEs/small industries/small businessmen /people at the bottom of pyramid

Chennai, December 06, 2021: Union Home and Cooperation Minister Shri Amit Shah addressed the 57th Raising Day celebrations of Border Security Force in Jaisalmer, Rajasthan today. The Union Home Minister awarded Police Medals for Bravery and Distinguished Service to the families of martyrs and serving BSF

Security Force has displayed valour and excellent service in every situation. The Army and the Border Security Force together displayed indomitable courage in 1971 in Longewala, driving out an entire tank battalion. Even though the enemy was greater in number and had modern weaponry, yet the victor is

During the COVID-19 pandemic, the CAPFs and police forces across the country showed their humaneness. Your countless companions lost their lives due to COVID-19, while serving the people during the pandemic. Be it peace time or war time, on the border

Security Force to protect the borders and the government is working in this direction. The Border Security Force, NSG and DRDO are making efforts to deal with the threat of drones and for creating an anti-drone resistance system. In a short time we will be able to create a

personnel who made the Supreme Sacrifice in the service of the nation and the President's Police Medal for serving and retired personnel. Union Minister Shri Gajendra Singh Shekhawat and Director General of Border Security Force were also present on the occasion.

On this occasion, the Union Home Minister said

the one who faces the enemy with courage and valour inspired by the spirit of patriotism.

Shri Amit Shah said that the countless gallantry medals and police medals received by the Border Security Force are a testimony to them being a unique force in border security. There is no medal to honour gallantry, your

or within the border, the Border Security Force is always ready to work for the safety of the people.

resistance system to control drones.

Shri Amit Shah said that recruitment of 50,000 jawans has been completed and we will make sure that efforts are made to increase recruitment further. The budget for road construction for good infrastructure for border security was about Rs. 23,000 crore between 2008 to 2014, but after Shri Narendra Modi assumed the Prime Ministership from 2014 to 2020, it has been increased from Rs. 23,000 crore to Rs. 44,600 crore. This shows that the Narendra Modi government is committed to completing the infrastructure for border security. He said that a network of roads is being laid in Rajasthan through the Bharat Mala Project on the 1,070 km long international border of Rajasthan. 24,800 km of roads are to be constructed from the roads to be built under Bharat Mala Project across the country. We have dedicated the Atal Tunnel to the nation, it was not operational for 6 years and it was done only during the time of Shri Modi. In order to make land acquisition easier for critical border projects, the government has given the task of land acquisition, rehabilitation and rearrangement to the Ministry of Home Affairs. He said that the more secure our borders, the more secure border areas will be. The Modi government has created many schemes for our citizens living in border areas. I have a request for the BSF jawans that along with the security of the border, when you get time, after discussing with the District Collector, find out whether people living in border areas are receiving benefits of welfare schemes of the government or not. We can create a strong circle of security on our borders by establishing relations and a dialogue with our citizens living in border areas.

that for the first time after the establishment of the BSF in 1965, the Modi government has decided to celebrate the Foundation Day of the BSF in a border district and this tradition should be expanded. He said that this Foundation Day is being held during the 75th year of our Independence. It has been 75 years since Independence and the Prime Minister has decided to celebrate this year as the Amrit Mahotsav of Independence. The period between 75 and 100 years till the Centenary year of Independence will be the best period for the nation and during this period it has to be decided where will we stand in every field when the nation completes 100 years of Independence.

Shri Amit Shah said that more than 35,000 personnel of Border Security Force, Police Forces and CAPFs have made the Supreme Sacrifice across the country and the BSF is at the forefront, as the responsibility of guarding the most difficult borders has been given to the BSF. I would like to pay my humble tribute to all those martyred brave soldiers on behalf of the nation and the Prime Minister. The Border Security Force has a very proud history. It was decided to create the BSF after the 1965 war and today it is the largest border guarding force in the world. Be it mountains, deserts, forests or any type of geographical environment, the Border

gallantry itself is a medal for the entire nation. These medals given by the President and the Prime Minister are not only for the BSF and its 2,65,000 personnel but will also be a source of inspiration for the nation. During Atal Bihari Vajpayee's time an important decision was taken with regard to the protection of our borders - this was one country, one force, that is, there will be only one force on the different borders of the country. The toughest borders were selected for the BSF at that time, which is justified. The Bangladesh border of 4,165 km and the Pakistan border of 3,323 km. The security of these two borders is the most difficult, but this force of more than 193 battalions and 2,65,000 personnel has protected these borders very well.

The Union Home Minister said that Prime Minister Shri Narendra Modi has always been sensitive towards those who guard the borders. Under the Ayushman Yojana, all CAPF jawans and their families have been given comprehensive health cover through a single card. Shri Narendra Modi has provided this card to all family members, so that as soon as this card is swiped the best treatment for yourself and your family members can be received in more than 21,000 hospitals. The Central ex-gratia which is Rs.35 lakh and Rs.25 lakh, that too is now delivered to the martyr's family in a month.

Union Minister Dr Jitendra Singh says, marine minerals from coastal and ocean sources will be key to India's future economy;

Chennai, December 06, 2021: Union Minister of State (Independent Charge) Science & Technology; Minister of State (Independent Charge) Earth Sciences; MoS P.M.O., Personnel, Public Grievances, Pensions, Atomic Energy and Space, Dr Jitendra Singh today said that marine minerals from coastal and ocean sources will be key to India's future economy. In addition, he said, metals like nickel and cobalt play an important role in promoting renewable energy technologies needed to fight the climate change challenges.

Inaugurating the new building facilities at CSIR-IMMT (Institute of Minerals & Materials Technology) at Bhubaneswar, Dr Jitendra Singh told the scientists and students that IMMT is a R&D Lab of national importance in minerals and materials technology under the aegis of CSIR to address the problems of industry for their sustainable development.

Dr. Jitendra Singh said that India has emerged as one of the frontline nations in marine scientific research under Prime Minister Narendra Modi and now actively engaged in exploring the resourceful ocean bed for meeting the country's future energy and metal demands. He said, the "Deep Ocean Mission" initiated by the Modi government heralds yet another horizon to various resources to enrich the "Blue Economy".

Dr Jitendra Singh said that steps are being taken for close coordination and collaboration between IIMT and NIOT (National Institute of Ocean Technology), Chennai for accelerated progress in developing India's

blue economy and harnessing its ocean resources. He said, efforts are on for development of suitable technologies for effective mining of some of the deep-sea mineral resources and exploitation of gas hydrates resources.

It may be recalled that in October this year, the Minister launched India's First Manned Ocean Mission Samudrayan at Chennai to carry out deep ocean exploration of the non-living resources such as polymetallic manganese nodules, gas hydrates, hydrothermal sulphides and cobalt crusts, located at a depth between 1000 and 5500 meters.

Dr Jitendra Singh said that over the last seven years, the main thrust of R&D at CSIR-IMMT has been to empower Indian industries to meet the challenges of globalization by providing advanced and zero waste process know-how and consultancy services for commercial exploitation of natural resources through the public-private-partnership (PPP) approach. He said that such engagement and the technological intervention provided to industry has made CSIR-IMMT, the first choice for many of the minerals and extractive metallurgy based industries. It is also carving out a niche in processing of advanced materials for greater

value addition and working on resource use efficiency of critical raw materials, he added.

The Common Research and Technology Development Hub (CRTDH) has been established at CSIR-IMMT, by the joint effort of CSIR-IMMT and Department of Scientific and Industrial Research (DSIR), Government of India in order to provide, technological solution, to mentor entrepreneurs/startups, alongside facilitating incubation of startups. Its primary objective is to nurture and promote innovations in MSMEs and provide them R&D or knowledge-based support in the area of new materials and chemical processes. The aim is three-fold:

- R & D & Knowledge based Support to MSMEs & Start-ups
- Mentor, nurture, collaborate, or hand-hold MSMEs to develop innovations
- Provide enabling services such as IPR support, Laboratory facilities, testing and

analysis support for quality assurance, auditing of existing production processes etc.

Currently, under the CRTDH program, many collaborative projects with Metallurgical/Agro/Boiler/Electronic/Minerals - MSMEs/Start-ups, focusing on development of new materials, coatings, agro-waste to wealth (K-enriched fertilizer), electronic waste to wealth (recovery of precious metals) etc are being undertaken. It has provided more than 4 number of technological solutions to agro and metallurgical/minerals industries and 10 know-hows related to fighting against COVID like sanitizers, liquid soap, disinfection kits etc. to around 14 MSMEs since its inception.
