

From training in her father's farm to winning Khelo India silver, Maharashtra's Kalyani Gadekar has come a long way

Chennai, June 09 2022: A mud pit that doubled up as a makeshift wrestling arena in her father's small farm became the perfect training ground for Kalyani Gadekar.

It doesn't mean that the Maharashtra wrestler, the 53kg silver medallist at the Khelo India Youth Games 2021, was born with a silver spoon in her mouth.

It is just that her father didn't have a choice. A wrestling fan, Pandurang Gadekar wanted young Kalyani to become a wrestler. But their tiny village called Jaipur in Washim district of Vidarbha didn't have a single

coaching centre. "My father somehow collected soft gymnastic mats and put a bedsheet over them to give me a feel of playing on wrestling mats," she laughed.

The father and daughter tango didn't end with the emergence of the makeshift wrestling arena, though. Pandurang even had to don the mantle of coach and trainer because there were no coaches in their district, despite the state producing innumerable national and international winners over the years.

Their partnership ended when Kalyani made it to the School

Nationals in her very first attempt. Her parents then sold a part of their land to shift her to Sonapat for further training. "My younger brother and sister continued to

train in the same mud pit recalled. Incidentally, now, the We used to have a lot of three siblings all train at fun as kids," Kalyani the Sports Authority of

India's National Centre of Excellence in Mumbai.

The 18-year-old Kalyani has clearly come a long way since her initial training, winning the 53kg silver here on Wednesday.

It wasn't easy though. Twice, she came from behind to beat Punjab's Manjeet Kaur in the semifinal. But she ran out of luck in the gold medal bout, unable to stop the juggernaut of Haryana's Antim.

"I am happy with my performance though. I normally compete in the 50kg category. But as there is the 49kg category here, I had to move up to the 53kg

class. I couldn't cut my weight down in such a short time," Kalyani, who had won a silver in the KIYG Pune edition too, in the 46kg category, explained.

About a year ago, she got selected to train at Kandivali, Mumbai, under the SAI scheme, and has been working with coach Amol Yadav on her tactical game.

"She is physically very strong and used to be very defensive due to lack of proper coaching. But we are working on that and I am sure we can see a major improvement in her performance over the next 6-10 months," said Yadav.

Naina soon discovers she cannot give her husband what he wants. Determined, they put their hopes on In vitro fertilization (IVF). But this is only the beginning of the storm that will soon rip Naina's life apart. Two wilful women, separated by the chasm of time, negotiate their feminine identities, struggle against patriarchal forces, face accusations of crime, and resurgence of old wounds - all in pursuit of fulfilling their innermost desires. Powerful and unflinching, Padma offers an intimate portrait of womanhood in India that will captivate you from the very first page. About the Author: Mala was born and brought up in Mumbai. In 1999, she moved to Singapore where she lives with her husband, two children, and Labrador, Magic. She published a book in the early 2000s, titled 'History of Painting for Young Readers', and contributed the column 'ArtBeat' for Young World - the children's supplement of the Hindu newspaper. She also contributed to company newsletters and promotional materials. Padma is her second novel, and her first

literary fiction. Mala works with her husband in their shipping and logistics company, Transworld Group Singapore. Her other interests include event planning - both commercially as well as for charity. She enjoys walking, cycling, dancing, and golf - and is very particular about living a healthy and fit life. Q & A with the author Mala Mahesh: What made you write this book now? I wrote the first draft for this book long back but had been busy with work and other priorities. Around May 2020, I restarted this book again with a new focus on complete the writing and editing to get it ready for publishing. Why did this subject matter interest you? My grandmother told me about some true-life incidents on the issue of infertility. From those times to now, a woman's worth is judged on their capacity to bear children. They were blamed and shamed for something beyond their control. Between the couple, the problem could lie with the man, but they would refuse to accept that fact. I felt it was unfair to pin the blame on women for this condition and wrote a story on how this situation could impact a woman's feelings, psyche, and family. Why did you choose two women so many years apart? The taboo surrounding infertility is as prevalent now as it was before. I felt using two different time periods would make the story relevant through its comparisons from then to now. Why is this issue still so touchy? Perhaps because it's not really understood. People feel embarrassed or uncomfortable to talk about their body and its problems, especially in front of others. For generations, society believes that childbirth comes naturally to women. Hence, there's a feeling that you're not good enough because you can't do what comes easily to your family and friends. Is it lack of thinking or understanding? I would say it is lack of understanding. Many people do not realize difficulties surrounding childbirth are rather common. Also, these issues are not the result of certain lifestyle choices that a woman or man has made. How does it affect modern women? Since not many people openly speak about this topic, women with this problem suffer alone. Their loneliness and sense of shame, which is unjustified, is a heavy burden to carry. Do you offer a solution? Often such problems are caused by preconceived notions, laced in patriarchy. Therefore, a straightforward solution seems elusive. I feel it would perhaps help to be honest with yourself, as to what you really want? Then communicate it with your partner, family, or friends or if you feel comfortable, speak to a therapist. It could help in easing the loneliness and self-doubt. This is purely my view. How can this problem be overcome? To have a child or not, is a very personal decision. There's no right or wrong answer. The best way to overcome this problem is communication and support from family and society without judgement. Did anyone else help you with bringing out this book? I'm lucky to have the support and guidance from my husband Mahesh, my children Mithila and Murli, and my son-in-law Ajay. Certain terms and content in my book had to be checked and verified for accuracy. I'm grateful to Mithila, a clinical psychologist, Murli, a lawyer-in-training, and my sister-in-law Sumitra, a medical doctor, for their valuable advice. I have received input from a few close friends on traditional Kerala architecture, as well as feedback on the structure and pace of my story.

The movie revolves around the relationship and bonding between the protagonist Dharma and a dog named 'Charlie' that is laced with adventure and entertainment. Actor Rakshit Shetty, who was last seen in the movie 'Avane Sriman Narayana' has produced this movie and played the lead role as well. While the movie is scheduled for worldwide theatrical release on June 10, 2022, the entire team was present for the Pre-Release event to promote the Tamil version in Chennai. Here are some of the excerpts from the event. B Sakthivelan of Sakthi Film Factory said, "Karthik Subbaraj screened this movie and asked if I could release it. I would like to express my views that the pet dog that has acted in the movie deserves 'Best Animal Creature' for its beautiful work. I am still in awe of this movie, and can't imagine, how the makers have narrated such a beautiful story. I am confident that 777 Charlie is going to be a cherry-pick for kids and pet lovers." Actor Raj B Shetty said, "I have played the role of veterinary doctor in this movie. I wanted to be a part of this ambitious project. I would have never come up with the idea of producing this movie, but Rakshit has made it. It is such a challenging project, and it will definitely offer a wonderful experience to the audiences in the theaters. I thank filmmaker Kiran Raj, Rakshit Shetty for making me a part of this project. I thank Stone Bench for releasing this movie." Stone Bench Karthikeyan said, "We were stunned watching this movie. Myself and Karthik Subbaraj were into deep discussions as we were awestruck with this mind blowing project. We weren't able to figure out how they made such a project with so much of perfection. Only the ones with insatiable passion for cinema will be motivated to make such movies. Soon after watching this movie, we decided to release it. We felt excited to be a part of great movie. I wish and congratulate Rakshit Shetty and director Kiran for their wonderful work. It's really unimaginable and surprising to see the dog rendering a wonderful performance. The dubbing crew has taken

scrutinizing efforts in making this project look like a direct Tamil movie. I thank SJ Suryah sir for his earnest support. I wish great success to 777 Charlie." Actress Sangeetha said, "Not all actors are blessed to get a chance to work with pet dogs, and it has been an unforgettable experience for me. I am proud for having been a part of this movie. The director, producer, editor, Music director and almost everyone in the movie have delivered an impeccable performance. I request everyone to support this movie." Director-Producer Karthik Subbaraj said, "The movie industry is reviving after the long shut down of Corona. I have already shared a close bonding with Kannada movie industry. I have already watched the movies of Rakshit Shetty earlier. I watched the 15 minutes of this movie without any expectations. I thought it would be a gangster movie, but was shocked and surprised to see a different premise out there. I wanted to be a part of this great project, and hence decided to release in Tamil. I was confident about this movie success. It's unbelievable that 777 Charlie marks the directorial debut of Kiran Raj. It's a great challenge to make a dog act. We had tried the same in our movie Iraivi, and later deleted those scenes, as we weren't able to get the final output perfectly. This story is a must-to-be told one, and everyone will get a new lease of hope in their life after watching it. The movie is getting released in Tamil, Kannada, Malayalam, Telugu and Hindi. I request everyone to encourage and support this project." Actor SJ Suryah said, "If today, I am seen in good and promising onscreen roles, it's all because of Karthik Subbaraj. I express my heartiest wishes and congratulations to the entire team of 777 Charlie. The passion and vision of director has made this project achieve such a fabulous output. Initially, I

thought this movie is a low-budget fare, but was surprised to see it being filmed across various part of the country in grandeur. This loveable dog Charlie has delivered a beautiful performance. The emotions it has delivered in this movie is extraordinary. This is a good content-driven story, and I am happy that it is getting released through Stone Bench. They would never miss from releasing a good movie. This will be a completely fresh and different experience for the audiences in Tamil. The earnest dedication of Rakshit Shetty sir deserves special appreciations. I request the people of Tamil Nadu to support this movie." Actor Rakshit Shetty said, "This is a very special and close to heart project for me. 777 Charlie has personally transformed my life in many ways. The movie was completed 1 1/2 years back itself. Being a producer of this movie, I had the thoughts of releasing it on OTT platform. However, after watching the final output, I had self-assurance that, whatever, maybe the situation, I have to release it in the theaters. Every movie isn't possible to be acknowledged as Pan-Indian movie, but this one has lots of qualities that will make it so far there is such content in this flick. The efforts and dedication of entire movie crew has been outstanding. Stone Bench was the first one to associate with this project. They have always encouraged good contents. I thank them for adding their Midas-touch to this project." 777 Charlie is produced by Rakshit Shetty and GS Gupta. Director-producer Karthik Subbaraj is releasing this movie in Tamil through his Stone Bench Productions, Rana Duggabati in Telugu and actor-producer Prithviraj in Malayalam.
