### "The American Dream Powered by Inclusion, Diversity, and Your Aspirations": U.S. Consulate General Chennai's **American Center Returns to the Chennai Book Fair**

Chennai, Jan 03 The set-up is 2023: geared up to supply H2-NG (natural gas) to households of Kawas township Adityanagar, Surat

The project would bring India at the centre stage of the global hydrogen economy

India would not only reduce its hydrocarbon import bill significantly but can also bring forex ashore by being a green hydrogen and green green hydrogen from the chemicals exporter to the world.

NTPC Ltd commissions India's first green hydrogen blending project. The green hydrogen blending has been started in the piped natural gas (PNG) awareness workshops network of NTPC Kawas township, Surat. with help of GGL The project is a joint effort of NTPC and Gujarat Gas Limited

(GGL).

The first molecule of project was set in motion by Shri P Ram Prasad, head of project, Kawas in presence of other senior executives of NTPC Kawas and GGL.

After the start of blending operation, NTPC Kawas held for township residents officials.

NTPC and GGL have already installed 1 MW

worked relentlessly towards achieving this milestone in record time after the foundation stone laying by the Hon'ble Prime Minister of India on 30th July 2022. This set-up is geared up to supply H2-NG (natural gas) to households of Kawas township at Adityanagar, Surat.

Green hydrogen in

Kawas is made by

electrolysis of water

using power from

floating solar project.

Petroleum and Natural Gas Regulatory Board (PNGRB), the regulatory body has given approval for 5% vol./vol. blending of green hydrogen with PNG to start with and the blending level would be scaled phase wise to reach 20%. Green hydrogen when blended with natural gas reduces CO2 emissions keeping net heating content

This feat is achieved pregnancy, which only by few select affects how the countries like UK, abdominal muscles Germany, and Australia separate. Diastasis recti etc. This would bring is the outcome of the India at the centre stage rectus abdominus. The of the global hydrogen pregnancy hormones economy. India would not only reduce its hydrocarbon import bill significantly but can also pushing during delivery. bring forex ashore by It is normal to being a green hydrogen experience some and green chemicals abdominal separation exporter to the world. during and after

pelvic floor muscles.

2023: One of the most unforgettable experiences a woman has in her lifetime is becoming pregnant and giving birth. Numerous physical changes have taken place, including weight gain, posture adjustments, and hormonal changes that

muscles' linea alba and connective tissues are Diastasis recti can stretched out by the occur in newborns, growing uterus during especially if they are preterm. This is a result of the incomplete development and connection of their abdominal muscles. Usually, the problem gets better on its own relaxin and estrogen aid with time. in their progression. In addition, diastasis recti linea alba (abdominal might result from

center) accompanied by an abnormally widening of the space between the two medial sides of the rectus abdominus muscle is known as diastasis recti (rectus diastasis) or divarication of the recti (increased inter-recti distance). Although it can also

affect men and postpartum women, muscles are stretched. diastasis recti primarily affect newborns and pregnant women. Due to constant straining, diastasis occurs more posture, problems with frequently in constipation, and weak

multiparous women.

Diastasis recti

assessment requires consultation with an obstetrician and gynaecologist, physiotherapist with expertise in women's health, or OB/Gyn specialist. The patient can assess themselves Stretching of the by lying in the "crock" position, raising their head, shoulders, and arms off the bed, extending their arms toward their knees, and keeping their fingers horizontally across their abdomen (linea alba) to count how many fingers fit between the borders of the two rectal

> When the abdominal the main symptoms will be a pooch or bulge in the stomach. Lower back pain, hunched over

This needs to be controlled during pregnancy by performing the proper exercises without allowing it to worsen, and 6 to 8 weeks after birth, pelvic floor therapy must continue to prevent the development of umbilical hernia.

When diastasis recti

exist, avoid exercises like abdominal crunches, straight planks, heavy weightlifting exercises, back bends, and certain yoga poses that bulge or overstretch abdominal muscles. If you must cough vigorously, support your abdomen and do so. Maintain good posture and a regular breathing pattern. Support your lower back while sitting. Incontinence and painful sexual encounters should also be taken care.

Diastasis Recti that is left untreated can develop into an umbilical hernia; this can be prevented with early diagnosis and the use of physical therapy by a qualified women's health physiotherapist. This should be implemented at the beginning of pregnancy when the risk of umbilical hernia is low.

## **Special focus on hilly and border areas for** better implementation of Khadi and Village **Industry activities - Manoj Kumar, Chairman KVIC**

Chennai, Jan 10 2023: On the occasion of inauguration of West Tripura Bamboo Mat Cluster and new KVIC building under SFURTI scheme along with inauguration of various programs launched in North Eastern Regions of the country, held at Agartala, Tripura on 9th January, 2023 Chairman Shri Manoj Kumar said that the priority of KVIC is to create additional employment opportunities in the country through various programs and schemes to make dream come true of 'Atmanirbhar Bharat' of Prime Minister Shri NarendraModi. We have to contribute our full towards realizing his dream, so that more and more artisans, spinners and weavers associated with this sector may earn respectable remuneration.

Chairman Shri Manoj Kumar while addressing on the occasion of launch of various programs and schemes organized in Agartala in the dignified presence of Micro, Small and Medium Enterprises Minister Shri Narayan Rane and Chief Minister of Tripura said that Khadi and Village Industries Commission is Making every effort to promote the KVI programs initiated for the development of the

level.

Chairman, KVIC

mentioned that our

Prime Minister has been making continuous efforts for the promotion of Khadi for the last 8 years. He gave priority to revive Khadi and he is taking 'Khadi' to new heights on the motto of 'Khadi for Nation, Khadi for Fashion and Khadi for Transformation'. He Government of India has the PMEGP scheme.

In the financial year 2021-22, the sale of

### **Defence Acquisition Council approves Acceptance of Necessity for three capital acquisition proposals** two of Indian Army & one of Indian Navy - worth Rs 4,276 crore

Chennai, Jan 10 2023: meeting of Defence Acquisition Council (DAC), held on January 10, 2023 under the chairmanship of Raksha Mantri Shri Rajnath Singh, accorded Acceptance of Necessity (AoN) for three capital acquisition proposals, amounting to Rs 4,276 crore. All the three proposals - two of the Indian Army and one of the Indian Navy - are under the Buy (Indian-IDDM) category.

The DAC accorded AoN for procurement of HELINA Anti-Tank Guided Missiles, launchers and associated support equipment which will be integrated to the Advanced Light Helicopter (ALH). This missile is an essential part of weaponisation of ALH for countering enemy threat. Its AoN for procurement of

induction will strengthen the offensive capability of Indian Army.

The DAC also accorded

need to focus on effective Air Defence (AD) weapon systems which are man portable and can be deployed quickly in rugged terrain and maritime domain. Procurement of VSHORAD, as a robust and quickly deployable system, will strengthen the Air Defence capabilities.

Further, the DAC granted approval for procurement of Brahmos Launcher and Fire Control System (FCS) for the Shivalik class of ships & Next Generation Missile Vessels (NGMVs) for Indian Navy. With their induction, these ships would have enhanced capability of carrying out maritime strike operations, interdicting and destroying enemy's warships and merchant vessels.

# I am really excited to work in more projects in the Tamil, Telugu and Malayalam industry - 'VJ Archana'

Chennai, Jan 10 2023: Archana is a model and an actress from Chennai who. After completing her engineering, she started her career as a VJ in Adithya TV in 2019 and then went on to star in Vijay TV's 'Raja Rani 2' that brought her laurels for her performance. Following this, she had two short film releases in 2022- 'Love Insurance' and 'Truth or Dare' and a Web-series 'Enakku Kalyanam Vayasu Vandhurchu'. Archana's recent release last year was Sony Music's 1 Min 'Dhamathundu' alongside Music Composer Dharan Kumar that became a sensation on Social Media.

"I consider being a Tamilian as my biggest strength since I can understand, emote and involve myself into the character I play on screen. Acting has always been my passion and I look forward to work in some interesting projects where I am able to utilise my potential to the fullest."

Archana exuberates

confidence while she discusses about the type of films she would like to be a part of and that she would impress the audience with it. She has Arulnithi's 'Demonte Colony 2' in the pipeline and is really excited to work in more projects in the Tamil, Telugu and Malayalam industry.
