Chennai, July 13 2023: Shopsy, India's fastest-growing hyper value platform, celebrates two years of delivering value across tier-2 and tier-3+ regions and surpassing a milestone of 200 million Shopsy app downloads. To celebrate the platform's second anniversary, Shopsy's second edition of the Mega Anniversary Sale went live recently on the platform. During the sale, the platform witnessed a whopping 2X uptick in units sold of which sarees, men's t-shirts and kurtis were the most shopped products.

Value-seeking customers drove demand for Shopsy over the past two years, with over 60% hailing from tier-3 markets. A wide range of products across attractive price bands, the trust of the Flipkart brand, and

innovative and customer-friendly features such as voice and image search, vernacular interface, and, most importantly, AI-driven chatbots have been instrumental in fueling this adoption.
