KEI Industries Ltd. becomes Principal & Sustainability Partner with Royal Challengers Bengaluru (RCB) for the upcoming T20 cricket festival

Chennai March 20 2024: KEI Industries Ltd., one of the India's leading wires and cables manufacturer today announced its strategic association with Royal Challengers Bengaluru as Principal Partner for the upcoming T20 season and also the Sustainability Partner for the same. The association will help KEI Industries strengthen its growing brand and business presence nationally. The cricketing season is set to begin from 22nd March 2024 at M.A Chidambaram Chepauk Stadium, Chennai.

Aligned to the association, the players and official members of Royal Challengers Bengaluru franchise will be sporting the KEI logo on the back of their official match jersey. The logo will also be prominently visible during the on-ground matches of the franchise. The brand will have the right to use player images and team logo for internal use and promotional purposes. The association will also be amplified across, print, outdoor, television, digital and social media platforms which will run through the entire duration of the

tournament. Team RCB (Royal Challengers Bengaluru) is proud to announce its forthcoming match in which the team will don green jerseys as a symbol of our commitment to supporting sustainability initiatives. This conscious decision aims to raise awareness about environmental protection and the importance of fostering greenery. By leveraging our platform and influence, we seek to inspire fans, partners, and the wider community to join us in championing this noble cause.

Blue Star launches a new range of energyefficient deep freezers from 60 to 600 litres

Chennai, March 20 2024: Blue Star Limited, announced the launch of a comprehensive new range of energy-efficient and eco-friendly deep freezers varying in capacities right from 60 to 600 litres to cater to a wide set of customer segments for diverse applications.

New Range of Deep Freezers for 2024

The new range deep freezers offer higher storage, enhanced cooling capacity and are embedded with superior technologies which ensure greater heat transfer for efficient cooling. Further, they are super tropicalised and designed to work even in 47 ambient temperatures. A few other features include wide range of elegant control panels with smart eye and square design with LED light, Quadracool technology that ensures uniform and optimum cooling from four sides, and a wide operating voltage range right from 160V to 270V. With an extensive range of storage capacities, the Company is in a position to cater to a wider customer segment for applications right from dairy and ice the Ahmedabad Plant is cream, frozen food, restaurants, convenience stores, hospitality and supermarkets, among others. These deep freezers start at an attractive price point of Rs 16,000/- onwards.

Strengthening 'Make in India' Strategy

Company's commitment to the 'Make in India, Make for the Globe' initiative. Two years ago, this new plant at Wada was commissioned to manufacture deep freezers from 300 to 600 litres, and in the current financial year, an additional capex was invested to manufacture the entire range starting from 60 litres. This facility is well-equipped with the latest technologies and has also received BIS certification for deep freezers. The new plant has an installed current production capacity of 3 lakh deep freezers and 1 lakh water coolers.

In addition to Wada, dedicated to the manufacturing of deep freezers.

Cold Chain Products and Solutions

Apart from deep freezers, the Company has ambitious plans to grow its Commercial Refrigeration business

The entire deep to leverage the rising freezer range is now opportunities in the manufactured country. With a rich completely in Blue legacy of over 80 years Star's modern and expert domain manufacturing facility at knowledge, Blue Star Wada, reaffirming the has developed a wide portfolio consisting of cold chain products and solutions that cater to the entire spectrum of and Healthcare.
